EXPERIENCE

Full Stack .Net Web Developer

Coder Foundry   2023-2023

- **Extensive Web Development Experience:**
  - Developed web applications using ASP.NET, C#, JavaScript, HTML, and CSS.
- **Notable Project: Bug Tracking Software & Dev Diary:**
  - Engineered robust bug-tracking software with ASP.NET, MVC, C#, and SQL, featuring role-based security and ticket tracking from Open to Complete status.
  - Developed within a 3-week timeframe using C#, .Net, HTML, Javascript, Bootstrap, MVC, and SQL Server, with the database hosted on Railway. Explore the project at the Project link:

  - https://bugtrackingsystem.up.railway.app/.
  - https://devdiary-production.up.railway.app/
- **Skills in Design and Implementation:**
  - Proficient in utilizing MVC architecture and Bootstrap framework.
  - Designed and implemented scalable web applications.
- **Version Control with GitHub:**
  - Utilized GitHub for version control to ensure efficient collaboration and code management.
- **CI/CD Implementation:**
  - Implemented Continuous Integration/Continuous Deployment (CI/CD) pipelines with GitHub.
  - Published projects on Railway and Netlify for reliable accessibility.
- **Database Management with PostgreSQL:**
  - Strong command over PostgreSQL for robust data management in various projects.

DSP

HICK   2021-2023

- Dedicated Amazon Delivery Driver with a strong commitment to timely and accurate deliveries.
- Proven track record of efficiently navigating delivery routes while prioritizing safety.

Education

Coder Foundry - Kernersville, NC   2023-2023

- Full-Stack .NET Development

Instituto de Banca y Comercio - Caguas, PR   2011-2011

- Licensed Practical Nurse (LPN)
